## RECYCLING OF OLD VEHICLES

It is our duty to protect the environment.

Mitsubishi Motors designs and produces high quality vehicles and components aiming to provide our customers with durable motor vehicles, and excellent services to maintain your vehicle in an optimum running condition. We have the highest respect for the environment and use materials which may be recycled and re-used after your Mitsubishi Motors vehicle has come to the end of its economical life. After a long working life we will take your vehicle back and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles (up to 3.5t GVW) sold after 1st July 2002, will be taken back free of charge from the last owner, at one of the designated take back points, provided the vehicle contains all major components and is free of waste. From 1st January 2007, this applies to all Mitsubishi Motors vehicles irrespective of the sold date. A network of collection points is available to receive Mitsubishi Motors End-of-Life Vehicles,

## OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

Around 2,500 Mitsubishi Motors Authorised Service Points in Europe are committed to helping you wherever you are.

## PROFESSIONAL SERVICING

Even new cars require regular maintenance and servicing. Not just to guarantee your mobility, but also for the safety of you and your passengers. Trained professionals using specialist diagnostic equipment and original parts at your Mitsubishi Authorised Service Point are ready to oblige. You'll be advised about the cost beforehand, so there will be no unpleasant surprises when you return to pick up your vehicle.

## MITSUBISHI MOTORS GENUINE PARTS

Even the smallest technical faults can lead to accidents. Therefore, all Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. It is recommended to use Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorised Service Points. We are proud to regularly score top in After Sales quality surveys.

## MITSUBISHI MOTORS CORPORATION

[www.mitsubishi-motors.com](http://www.mitsubishi-motors.com)

## MITSUBISHI MOTORS EUROPE B.V.

[www.mitsubishi-motors-europe.com](http://www.mitsubishi-motors-europe.com)

Some equipment may vary according to country.  
Please consult your local Mitsubishi Motors dealer/distributor for details. All rights reserved.

to ensure your vehicle will be recycled in an environmentally friendly manner. At the same time, the possibilities for the recycling of vehicles and vehicle components are continually being evaluated and improved, aiming to the achievement of even higher recycling percentages in the future.

The European End-of-Life Vehicles Directive and the free take back of End-of-Life Vehicles are applicable in all European Union member states. The transposition of the End-of-Life Vehicles Directive into national law in each member state might not have been completed at the time of putting this publication to print.

Please refer to [www.mitsubishi-motors-europe.com](http://www.mitsubishi-motors-europe.com) and select the web site of the Mitsubishi Motors service network in your country of residence, or call the National Mitsubishi Motors Customer Assistance Centre for further details.

## COMPREHENSIVE WARRANTY – OBVIOUSLY

New Mitsubishi vehicles come standard with a comprehensive 5\*-year warranty or up to a maximum of 100,000 km (62,500 miles), whichever comes first. The anti-corrosion perforation warranty covers rusting through for the first 12\* years. The reliability statistics for Mitsubishi vehicles are impeccable, but in the unlikely event that you do need help, we offer MAP.

\*Depending on vehicle model and market, for details please refer to your Mitsubishi Service Booklet

## MITSUBISHI MOTORS ASSISTANCE PACKAGE (MAP) – FREE BREAKDOWN ASSISTANCE

In order to demonstrate our commitment to your mobility and the faith we have in the reliability of our vehicles, you will receive a free MAP card valid for 5 years with your new Mitsubishi. With the MAP card in your pocket, your mobility is guaranteed in more than 30 countries throughout Europe.

Should you ever need assistance in the event of breakdown, accident, theft or vandalism – wherever you are, 24 hours a day, 7 days a week – just call the number on your card and the problem will be fixed on the spot. If it's more serious, your car will be taken to the nearest Mitsubishi dealer and you'll be offered services such as a hotel, continuation of journey, a replacement car and vehicle repatriation.

# ECLIPSE CROSS

4WD INSTYLE with optional equipment / Red Diamond [P62]

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

4WD INSTYLE with optional equipment / Red Diamond [P62]

## READY FOR ACTION

Bold lines. Flared fenders. A deeply sculpted wedge like an athlete perched to explode from the starting block. The ECLIPSE CROSS leaves onlookers behind to ponder its steeply raked rear window.

4WD INSTYLE with optional equipment / Black leather interior

## EXHILARATION AT YOUR COMMAND

The sporty, meticulously crafted cockpit quickens your pulse and heightens your pleasure. Every detail is designed to enhance your awareness and control. So driving feels intuitive with direct, linear response to every command.

Image of Head Up Display indication

### Head Up Display [HUD]

The Head Up Display conveys vehicle information in full colour above the meters for easy viewing. You can adjust image brightness and display height to suit your preference and time of day. The combiner extends or retracts when you turn the ignition.

4WD INSTYLE with optional equipment / Black leather interior

## A REFRESHING EXPERIENCE FOR ALL

The joy of driving extends to every passenger in the spacious cabin, which is overflowing with quality materials and solid craftsmanship. Comfortable seats with supportive contours and plenty of legroom keep everyone feeling refreshed even on the longest of journeys.

### Rear seat adjustment

The comfortable rear seats with 9-step reclining and 200mm sliding adjustment can be slid all the way back for class-leading legroom. Even then, there is plenty of storage space in back and the 60:40 split seatbacks can be individually lowered for more.

### Slender side sills

The side sills are slender and protected from thrown up dirt by door garnishes while driving, so anyone can comfortably enter and exit the vehicle without rubbing their legs on the car and getting their clothes dirty.

### Tailgate window

The rear view is clear through the double rear windows with minimal interference from the height-adjustable rear headrests, which are specially designed to stay low while providing comfortable head support.

# WHEN LIFE THROWS YOU A CURVE, STAY IN TOTAL CONTROL.

Challenges arise when you least expect them. Whether navigating winding roads or snowy conditions, S-AWC (Super-All Wheel Control) vehicle dynamics control system supplies optimal drive torque to the rear wheels, as well as optimal drive and brake torque to the left and right front wheels, for incredible stability and control.

WATCH MOVIE ▶

<https://goo.gl/zEXkE1>

## S-AWC (Super-All Wheel Control) Integrated vehicle dynamics control system

S-AWC raises your confidence on any road by combining electronically controlled 4WD with Mitsubishi Motors' proprietary Active Yaw Control (AYC), which uses braking to optimally distribute torque to the left and right wheels. Even if you unintentionally brake or accelerate too hard around a snow-covered turn, you can maintain control without extra steering effort because S-AWC detects road conditions on a real-time basis and adjusts braking, as well as coupling in the rear differential, to improve vehicle performance. An indicator in the instrument panel keeps you informed of S-AWC status. You can choose the AUTO, SNOW or GRAVEL drive mode depending on road conditions to enhance turning accuracy, straight-line stability and manoeuvrability on slippery roads.

**AUTO mode**  
Provides solid 4WD performance in various conditions.

**SNOW mode**  
Enhances stability on slippery road surfaces and is optimised for snow-covered roads.

**GRAVEL mode**  
Delivers excellent driving performance on rough roads and helps prevent you from getting stuck.

4WD INSTYLE with optional equipment / Bronze Metallic [C21]

## RESPONSIVE ACCELERATION. MORE POWER FROM EVERY DROP OF FUEL.

### 1.5L direct-injection turbocharged petrol engine

Downsized for efficiency and turbocharged for powerful torque at low-to-mid rpm, the newly developed engine puts instant acceleration at your command. This highly responsive performance was made possible by direct fuel injection, an exhaust manifold-integrated cylinder head, sodium-filled exhaust valves, MIVEC (Mitsubishi Innovative Valve timing Electronic Control system) and more.

### INVECS-III CVT and 6 MT

The advanced CVT supports smooth, powerful acceleration and outstanding fuel efficiency with new step shift control that creates the satisfying sensation of shifting gears. A new lightweight 6-speed manual transmission is also available.

### Auto Stop & Go [AS&G]

**AS&G**

Auto Stop & Go (AS&G) reduces fuel consumption and CO<sub>2</sub> emissions by automatically shutting off the engine when the vehicle is stationary, such as when waiting at traffic lights. The engine restarts immediately when you remove your foot from the brake pedal (CVT model) or step on the clutch pedal (MT model).

Note: If Brake Auto Hold is active, the engine remains off until the accelerator pedal is pressed.

## Make all the right moves in relaxed comfort.

Handling is stable, intuitive and predictable. Where you point, the ECLIPSE CROSS goes with unerring precision and poise thanks to a fine-tuned suspension, responsive steering and supreme body rigidity – reinforced by spot welding, structural adhesives and a standard strut tower bar over the engine. At the same time, all passengers enjoy an extremely comfortable ride on every road wherever you travel.

Structural adhesive bonding on doors and tailgate openings increases coupling rigidity between body parts. (Images are provided for illustrative purposes only.)

REASSURING ALL AROUND SAFETY

Advanced safety technology supports safer, more confident driving on the road and in parking lots, day and night. From intelligent sensors that track your surroundings and warn you of danger to active driving assistance and solid passive protection, the ECLIPSE CROSS delivers all around high levels of safety.

Forward Collision Mitigation System [FCM]

Helps prevent a frontal collision or reduce damage if the collision becomes unavoidable. Responds to vehicles and pedestrians via camera and laser radar.

Danger of collision

Warning + braking assistance

High danger of collision

Warning + auto braking

Extremely high danger of collision

Warning + strong auto braking

Adaptive Cruise Control [ACC]

Maintains a selected distance between your vehicle and the car ahead via radar for greater safety and peace of mind. It reduces driver stress especially during traffic jams on highways.

No vehicle in front

Your selected speed is maintained even if you remove your foot from the accelerator pedal.

Vehicle in front

Your selected distance between vehicles is maintained.

Vehicle in front (slowing/stopping)

When the vehicle in front slows or stops, ACC slows or stops your vehicle.

Lane Departure Warning [LDW]

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

Automatic High Beam [AHB]

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

High beam

Low beam

Blind Spot Warning [BSW]

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. An indicator appears in the door mirror when BSW is active and the turn signals are off. When a vehicle is detected while the turn signal is on, an indicator blinks in the corresponding door mirror and a buzzer sounds.

Rear Cross Traffic Alert [RCTA]

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detect an approaching vehicle nearby while reverse gear is engaged, a warning message appears in the Multi-information display, a buzzer sounds and an indicator blinks in both door mirrors.

Multi Around Monitor

The views from cameras mounted on the front, rear and sides of the vehicle (including a bird's-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely. The vehicle on the screen can be displayed in your choice of 7 provided colours.

Rear view + Bird's-eye view

Active Stability Control [ASC]

If wheels lose their grip on slippery surfaces or while turning, ASC automatically adjusts engine output and applies braking force at the appropriate wheels to help maintain control and prevent skidding.

Hill Start Assist [HSA]

When starting on a steep slope, HSA helps prevent you from rolling backwards while you release the brake by maintaining the braking force for up to two seconds until the accelerator is applied.

RISE body

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

7 SRS Airbags

Front airbags, side airbags, curtain airbags and a driver's knee airbag help protect you and your passengers in the event of a collision.

Image of airbag deployment

Note:

FCM: The detection and control capabilities of Forward Collision Mitigation [FCM] are supplemental only and do not prevent collisions in every situation. Please drive safely and do not rely solely on this system while driving. FCM operates when a vehicle is in front of your vehicle. FCM is also designed to detect pedestrians, but may not detect them or be activated in some situations. Auto braking is activated for a car ahead when your vehicle is travelling at a speed of approx. 5km/h to 80km/h (approx. 5km/h to 180km/h if your vehicle is equipped with ACC) and for a pedestrian ahead at approx. 5km/h to 65km/h. Since FCM has no function to maintain braking, the brake is released approximately 2 seconds after stopping. To prevent the vehicle from rolling thereafter, the driver may have to hold the brake pedal down. In some cases, FCM may not function if the driver takes actions for accident avoidance through steering or acceleration operation. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

ACC: The detection and control capabilities of ACC are supplemental only. Please drive safely and do not rely solely on this system while driving. ACC may not be activated in some situations. This system may not correctly detect the actual situation depending on the type of vehicle in front and its conditions, the weather conditions, and the road conditions. Additionally, the system may be unable to decelerate sufficiently if the vehicle in front applies the brakes suddenly or another vehicle cuts into your path, so your vehicle approaches the front vehicle. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

LDW: Lane Departure Warning is not designed to lessen risks associated with not looking ahead carefully (attention drawn to something on the side, absentmindedness, etc.) or poor visibility caused by bad weather, etc. It is designed to detect the lane at a speed of approx. 65km/h or more. Keep steering your vehicle correctly and drive safely. The system may not be able to detect the lane correctly in some conditions. Please see the owner's manual for additional information.

AHB: This system activates at a speed of approx. 40km/h or more and deactivates at lower speeds. Please see the owner's manual for additional information.

Note:

BSW: The detection and control capabilities of Blind Spot Warning [BSW] are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving. BSW may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

RCTA: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving. The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

ASC: The control capabilities of ASC are supplemental only. Please drive safely and never rely solely on these functions while driving. Be sure to use the same specified type and size of tyres on all 4 wheels. Do not install any aftermarket limited slip differential on your vehicle. Please see the owner's manual for additional information.

HSA: Hill Start Assist [HSA] is not a substitute for safe driving. Never rely solely on this function while driving on steep roads. Your vehicle may move backwards if the brake pedal is heavily loaded, or if the road is very steep or slippery. This function is not designed to keep the vehicle stopped in place on uphill slopes for more than 2 seconds. Do not rely on this function to maintain a stopped position as an alternative to depressing the brake pedal. Please see the owner's manual for additional information.

7 SRS Airbags: Airbags are part of a Supplemental Restraint System (SRS). To decrease the risk of injury from a deploying airbag, always fasten your seat belt, sit upright in the middle of the seat and do not lean against the door. Always place children 12 and under in the rear seat if possible and use appropriate child restraints. If using a belt-fixed rear-facing infant restraint in the front seat, activate the SRS airbag cut-off switch. Please see the owner's manual and the instructions provided with your child restraint for additional information.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

# HUMAN CONNECTIVITY MADE INTUITIVE ON THE ROAD

## SMARTPHONE-LINK DISPLAY AUDIO

Expand your world with smartphone connectivity

- 7 inch touch screen
- DAB / FM / AM
- Hands-free Phone / Music Via Bluetooth®
- iPod®
- USB port \*2
- Multi Around Monitor
- Fuel Consumption Indicator
- Eco Information

Go where you want, when you want. Discover new places and new music. Smartphone-link Display Audio (SDA) helps you find such moments. You can operate map settings, music playback, and calls all with voice actions for a more enjoyable and safer drive.

### Android Auto™

For more information: [www.android.com/auto/](http://www.android.com/auto/)

By just connecting your Android™ Smartphone to SDA, you can operate your favorite apps through voice commands, letting you focus on the road for safer driving.

**MAPS**  
No more needing to update your GPS maps. Using Google Maps' real time traffic conditions and constantly updated maps, you'll never get lost again.

**PHONE**  
You can make calls and check voicemail hands-free.

**MESSAGES**  
Have your messages read to you, or write and send your own, all through voice commands.

**MUSIC**  
Discover new songs and make your own playlist out of the 40 million songs in the Google Play Music. Prepping for a drive has never been so fun!

**VOICE CONTROL**  
Hold down the steering wheel button or say "OK Google." The Google Assistant is your own personal Google, always ready to help.

**APPS**  
Easily access your favorite apps like WhatsApp, Spotify, and more. The list of compatible apps continues to grow.

GET IT ON  
**Google Play**

### Apple CarPlay

For more information: [www.apple.com/ios/carplay/](http://www.apple.com/ios/carplay/)

Connecting your iPhone to SDA lets you easily operate maps, music, calls, messages and more through Siri. SDA helps you intuitively do what you want on your iPhone, even on the road.

**MAPS**  
Use Apple Maps to set your destination. You can also use it to search for things like nearby restaurants and parking, or to estimate time needed for side trips.

**PHONE**  
Just ask Siri to make calls and check voicemail.

**MESSAGES**  
Leave it to Siri to read out, reply and send your messages so you can focus on driving.

**MUSIC**  
Tell Siri the name of artist or song and listen to the music you love from Apple Music, or your other audio apps.

**Siri**  
Just hold down the steering wheel button to call Siri up. "Play Music," "Where's the closest gas station?"...Siri's the perfect partner for a drive.

**APPS**  
You can use a number of audio, messaging, and voice calling apps with Apple CarPlay. You can also rearrange the icons using the setting on your iPhone.

Works with  
**Apple CarPlay**

Note:  
■ Please refer to page 26 for more details.  
■ Google, Android, Android Auto and other related marks are trademarks of Google LLC.  
■ iPhone, Siri and Apple CarPlay are trademarks of Apple Inc., registered in the U.S. and other countries.  
Note: Equipment may vary by market and other conditions. Please consult your local Mitsubishi Motors dealer/distributor for details.

**Touchpad controller**  
The touchpad controller allows intuitive operation of Smartphone-link Display Audio based on the human machine interface concept and is also compatible with Apple CarPlay operation. (Android Auto touchpad controller compatibility not available yet.)

Cursor: Flick 1 finger  
Select: Press 1 finger

Volume: Flick 2 fingers up/down  
Tuner: Flick 2 fingers left/right

### Mitsubishi Multi Communication System [MMCS]

This central Wide VGA touch-screen makes navigation easy and keeps you clearly informed of ECO information such as energy consumption and driving range. It also displays the rear camera view whenever you reverse to lend a helping hand.

**Wide VGA display**  
Presents information at high resolution for easy reading.

**3D map view**  
Shows 3D polygon landmarks on city maps.

**Sound quality control**  
Supports easy adjustment of various sound control functions.

**ECO function information**  
Your ECO score and other information from ECO functions are displayed.

**Split display**  
Simultaneously displays map information, audio information, etc. on the same screen.

**Navigation guidance in meter display**  
Direction and distance cues contribute to safe driving.

Note: The information displayed varies according to the engine type.  
Some functions may not be available depending on the smartphone or music player model. Please consult your local Mitsubishi Motors dealer/distributor for details.

- 1 3.5cm soft dome tweeter
- 2 16cm vacuum formed cone speaker
- 3 16cm vacuum formed coaxial 2-way speaker
- 4 25cm dual voice-coil subwoofer
- 5 710W 8-channel high-power amplifier

### Rockford Fosgate® premium sound system

Savour the stunning sound quality of a new audio system jointly developed with the Rockford Corporation. Nine speakers surround you with spectacular DTS Neural Surround™ sound.  
Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries. DTS Neural Surround™ is a trademark of DTS, Inc.

### USB port

The port is conveniently located near the shift lever, allowing easy access from both front seats.

4WD INSTYLE with optional equipment / Titanium Grey Metallic [U17]

## FEATURE HIGHLIGHTS

### Power panoramic sunroof

The stylish twin sunroofs with outer sliding glass open up the atmosphere for the driver and all passengers. Each shade can be separately operated to let in refreshing sunlight.

### Heated windshield

Heated wires throughout the windshield clear the glass of fog or frost to secure forward visibility in less time than by using the heater/defroster.

### Heated steering wheel

The heated steering wheel supports more comfortable operation in chilly weather. Its power switch is conveniently located on the centre panel.

### Heated seat

The driver's seat, front passenger's seat and two rear seats provide heaters in the cushions and seatbacks that can be activated or deactivated from easy-to-access switches.

### Keyless Operation System [KOS]

When carrying the key, you can press a button on the outside of the front doors or tailgate to lock or unlock all the doors and tailgate, and press the engine switch in the cockpit to start or stop the engine.

### Electric Parking Brake with Brake Auto Hold

Simply pull the switch up to apply the parking brake or push the switch down to release it. If Brake Auto Hold is active, the vehicle will remain stationary even if you release the brake pedal. Pressing the accelerator releases the brakes.

### Rain sensor

The rain sensor activates the windshield wipers automatically when moisture is detected on the windshield.

### Cruise control

Vehicle speed is automatically maintained without keeping your foot on the accelerator pedal, allowing more relaxed driving on extended journeys. Pressing the brake pedal disengages the system.

### Auto headlights

When your surroundings become dark, such as at night or when passing through a tunnel, the headlights automatically activate for your safety and convenience.

### Tyre Pressure Monitoring System [TPMS]

TPMS employs sensor-transmitters in the wheels to monitor tyre pressure and illuminates a warning lamp on the combination meter cluster if one or more tyres becomes significantly underinflated.

### Speed limiter

The speed limiter prevents the vehicle from exceeding the speed you select in most situations. You may need to apply the brakes to prevent the speed from being exceeded when driving downhill. A warning displays and an alarm sounds to alert you if the set speed is exceeded.

### Colour LCD Multi-information display

The large, 4.2-inch liquid crystal Multi-information display in the centre of the meter panel is extremely easy to read. It keeps you clearly informed of various useful information on vehicle status, your trip, external temperatures, the ECO drive assist system and more.

WARNING  
• Individuals who use implantable pacemakers or implantable cardioverter-defibrillators should keep away from the keyless operation system.  
The electromagnetic waves used in the keyless operation system may affect the operation of implantable pacemakers or implantable cardioverter-defibrillators.  
• Individuals using other electro-medical apparatuses should check with the manufacturer of the apparatus to confirm the effect of the electromagnetic waves used by the keyless operation system, as the electromagnetic waves may affect their operations.

■ WLTP and NEDC measured under the different methods. Therefore, there is a difference in the emission value on the specification chart.  
\*1 Continuously Variable Transmission.  
\*2 Measured by MITSUBISHI MOTORS CORPORATION. Your actual mileage will vary depending on how you drive and maintain your vehicle.  
\*3 Acceleration, fuel consumption and CO<sub>2</sub> values vary depending on equipment level.  
Note: Hazardous driving may cause serious injury or vehicle damage. Please drive safely at all times.

Notes:  
Customise the Smartphone-link Display Audio section according to the availability in your region.

NOTES ON SMARTPHONE-LINK DISPLAY AUDIO

- Google, Android, Android Auto and other related marks are trademarks of Google LLC.
- iPhone, Siri and Apple CarPlay are trademarks of Apple Inc., registered in the U.S. and other countries.
- Android Auto requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher.
- Apple CarPlay requires an iPhone with iOS 8 or higher.
- Despite the expansion of supporting countries, Android Auto and Apple CarPlay are NOT available in some markets. Please check the website for the latest information on availability.  
– Android Auto: <https://www.android.com/auto/#country-list>  
– Apple CarPlay: <http://www.apple.com/ios/feature-availability/#applecarplay-applecarplay>
- Android Auto and Apple CarPlay may not work under weak or no network condition even in supported areas.
- Customer is responsible for all communication fees. Also customer may be charged extra fees based on their contracted price plan by the telecom carriers.
- Customer may be requested to subscribe for roaming services by the telecom carriers when using in other countries.
- Not all smartphone Apps are compatible with Android Auto or Apple CarPlay. For safety reasons, only compatible apps are available in this Smartphone-link Display Audio.
- Some features or apps may not be available for all countries or all areas.
- The images used may not reflect the latest updates.
- Please check this website to confirm smartphones compatibility with Smartphone-link Display Audio. <http://www.iopinfo-sda.mitsubishi-motors.com/cs/bt/index.php>
- It does not have navigation function in the SDA itself.
