OUTLANDER PHEV

RECYCLING OF OLD VEHICLES

It is our duty to protect the environment.

Mitsubishi Motors designs and produces high quality vehicles and components aiming to provide our customers with durable motor vehicles, and excellent services to maintain your vehicle in an optimum running condition. We have the highest respect for the environment and use materials which may be recycled and re-used after your Mitsubishi Motors vehicle has come to the end of its economical life. After a long working life we will take your vehicle back and recycle it in an environmentally friendly manner in accordance with the EU Directive on End-of-Life Vehicles and any applicable national statutory provisions.

All Mitsubishi Motors vehicles (up to 3.5t GVW) sold after 1st July 2002, will be taken back free of charge from the last owner, at one of the designated take back points, provided the vehicle contains all major components and is free of waste. From 1st January 2007, this applies to all Mitsubishi Motors vehicles irrespective of the sold date. A network of collection points is available to receive Mitsubishi Motors End-of-Life Vehicles,

to ensure your vehicle will be recycled in an environmentally friendly manner. At the same time, the possibilities for the recycling of vehicles and vehicle components are continually being evaluated and improved, aiming to the achievement of even higher recycling percentages in the future.

The European End-of-Life Vehicles Directive and the free take back of End-of-Life Vehicles are applicable in all European Union member states. The transposition of the End-of-Life Vehicles Directive into national law in each member state might not have been completed at the time of putting this publication to print.

Please refer to www.mitsubishi-motors-europe.com and select the web site of the Mitsubishi Motors service network in your country of residence, or call the National Mitsubishi Motors Customer Assistance Centre for further details.

OUTSTANDING AFTER SALES FOR CAREFREE MOTORING

Around 2,500 Mitsubishi Motors Authorised Service Points in Europe are committed to helping you wherever you are.

PROFESSIONAL SERVICING

Even new cars require regular maintenance and servicing. Not just to guarantee your mobility, but also for the safety of you and your passengers. Trained professionals using specialist diagnostic equipment and original parts at your Mitsubishi Authorised Service Point are ready to oblige. You'll be advised about the cost beforehand, so there will be no unpleasant surprises when you return to pick up your vehicle.

MITSUBISHI MOTORS GENUINE PARTS

Even the smallest technical faults can lead to accidents. Therefore, all Mitsubishi Motors Genuine Parts have been developed and tested to stringent quality standards. It is recommended to use Mitsubishi Motors Genuine Parts in order to maintain the safety and integrity of your vehicle and that of your passengers. Mitsubishi Motors Genuine Parts are available at all Mitsubishi Authorised Service Points. We are proud to regularly score top in After Sales quality surveys.

COMPREHENSIVE WARRANTY – OBVIOUSLY

New Mitsubishi vehicles come standard with a comprehensive 5*-year warranty or up to a maximum of 100,000 km (62,500 miles), whichever comes first. The anti-corrosion perforation warranty covers rusting through for the first 12* years. The reliability statistics for Mitsubishi vehicles are impeccable, but in the unlikely event that you do need help, we offer MAP.

*Depending on vehicle model and market, for details please refer to your Mitsubishi Service Booklet

MITSUBISHI MOTORS ASSISTANCE PACKAGE (MAP) – FREE BREAKDOWN ASSISTANCE

In order to demonstrate our commitment to your mobility and the faith we have in the reliability of our vehicles, you will receive a free MAP card valid for 5 years with your new Mitsubishi. With the MAP card in your pocket, your mobility is guaranteed in more than 30 countries throughout Europe.

Should you ever need assistance in the event of breakdown, accident, theft or vandalism – wherever you are, 24 hours a day, 7 days a week – just call the number on your card and the problem will be fixed on the spot. If it's more serious, your car will be taken to the nearest Mitsubishi dealer and you'll be offered services such as a hotel, continuation of journey, a replacement car and vehicle repatriation.

MITSUBISHI MOTORS CORPORATION

Some equipment may vary according to country. Please consult your local Mitsubishi Motors dealer/distributor for details. All rights reserved.

MORE CAPABLE THAN EVER BEFORE.

Experience driving pleasure at a whole new level with the Plug-in Hybrid EV SUV. Motors at each axle and an efficiently powerful petrol engine work together to optimise performance for driving needs. Enjoy new adventures as well as the daily commute with the new OUTLANDER PHEV's responsive control and quiet comfort.

ELECTRIC & SUV

INSTYLE NAVI with SAFETY / Silky White Pearl [W13]

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

MORE PERFORMANCE. MORE FUN.

Experience the evolution of the PHEV through re-engineered S-AWC technology. An upgraded Twin Motor and S-AWC deliver upgraded power and performance that add four-wheel fun to any situation. The new OUTLANDER PHEV puts another angle on electric, so you drive like a pro.

ELECTRIC & AGILE

INSTYLE NAVI with SAFETY / Ruby Black Pearl [X40]

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

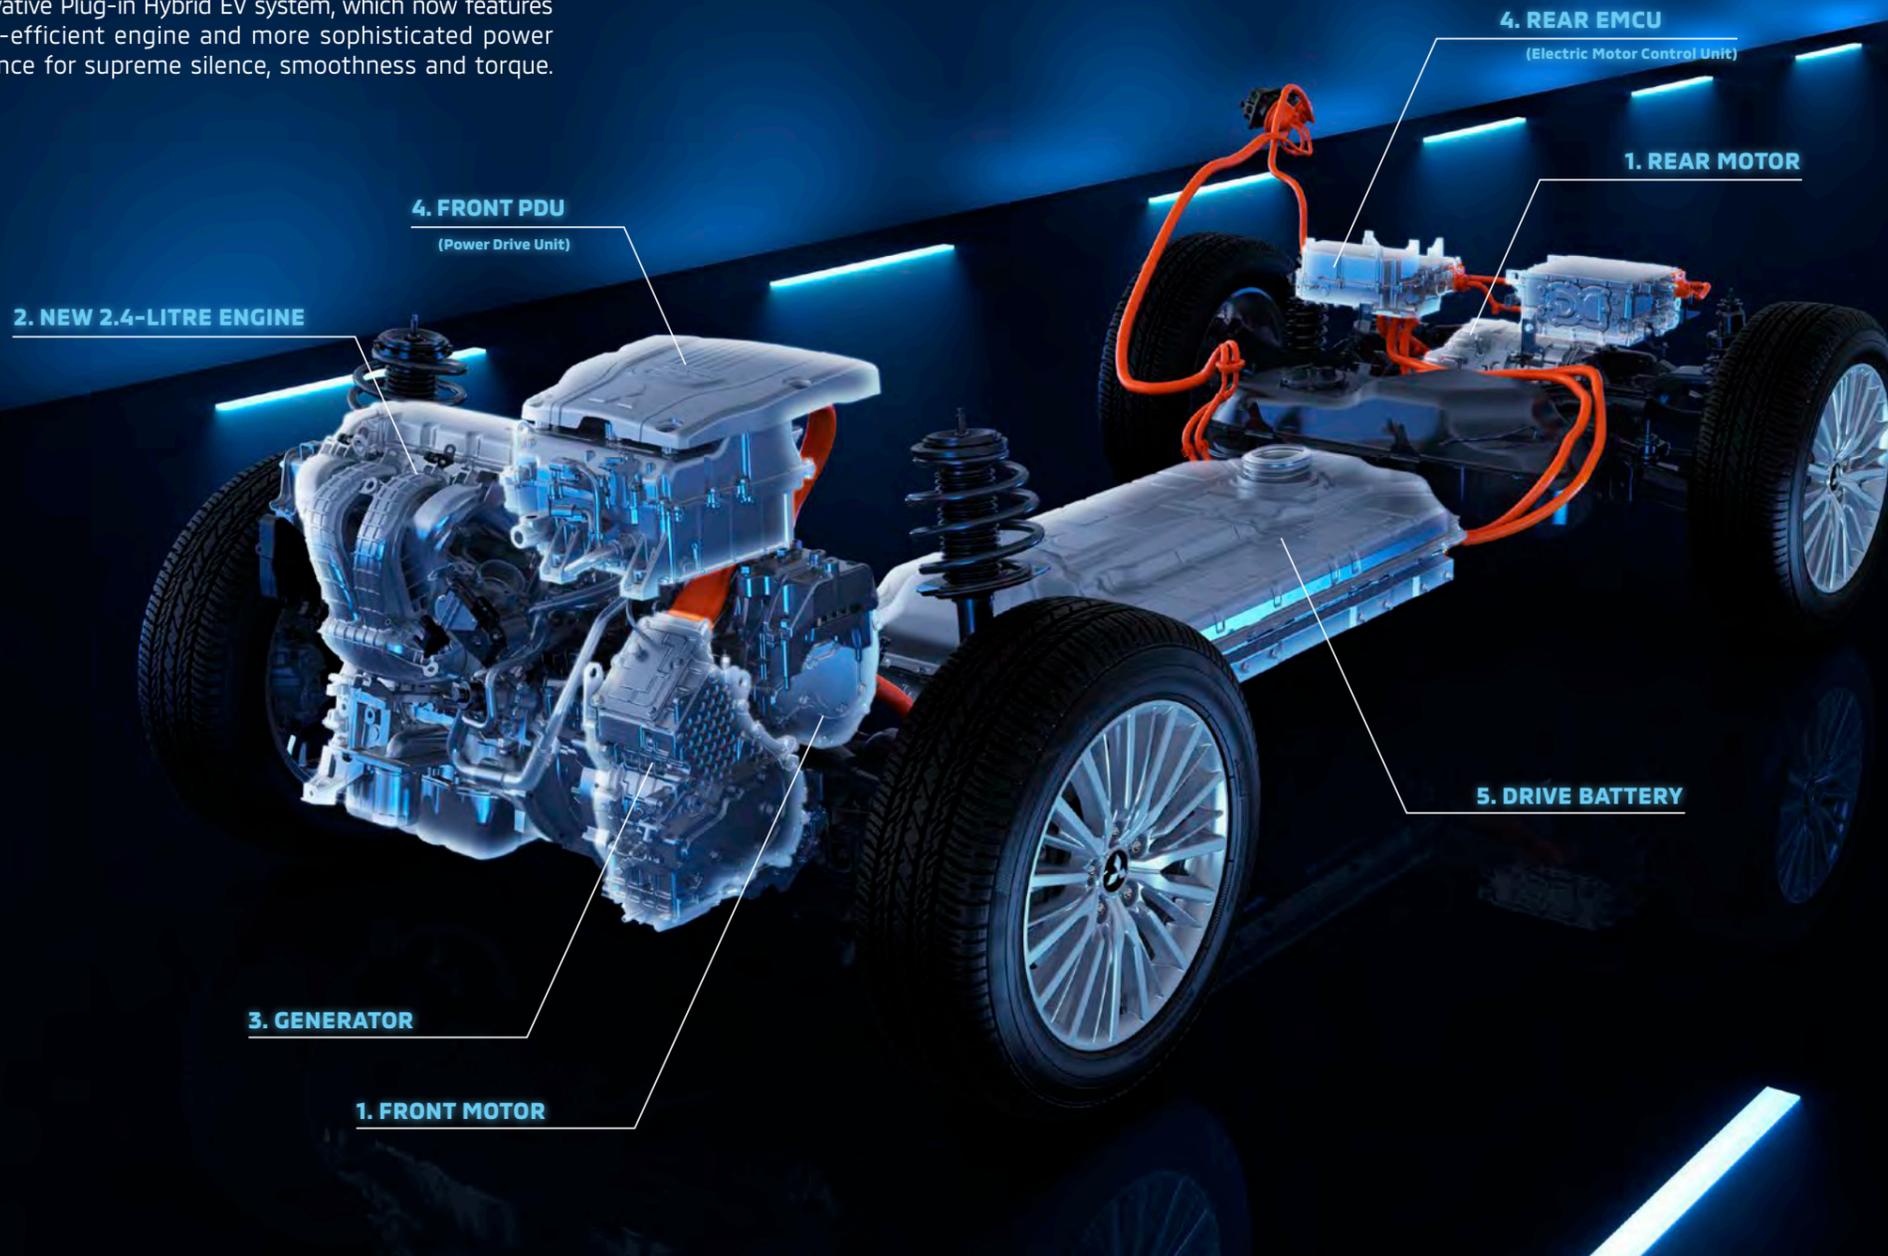

INSTYLE NAVI with SAFETY / Black leather with diamond quilting interior

SPACIOUS COMFORT AND NEW REFINEMENT

Enter an oasis of comfort and refinement where driving pleasure is enhanced by generous legroom, luxurious amenities and a supremely quiet ride. Front seats provide body-hugging support around corners. All seats are meticulously finished with high-quality material, and the rear seatbacks can be folded to flexibly meet your changing luggage needs.

INNOVATION WITH A PERFORMANCE EDGE

Dramatic refinement has come to the innovative Plug-in Hybrid EV system, which now features a higher-output rear motor, a more fuel-efficient engine and more sophisticated power management based on unrivaled experience for supreme silence, smoothness and torque.

1. Twin motor 4WD and S-AWC

Separately mounted motors at the front and rear axles deliver incredibly responsive 4WD performance with S-AWC ensuring excellent driving stability and intuitive, linear handling.

2. New 2.4-litre engine

The supremely efficient Atkinson-cycle engine with long expansion stroke provides high fuel economy and low CO₂ emissions.

3. Generator

The high-performance generator transforms engine power into electricity to recharge the drive battery and assist the motors when needed.

4. Front Motor PDU & Rear EMCU

These intelligent control units contribute to heightened energy efficiency and optimal motor control with instant maximum torque that outperforms a 3.0-litre petrol engine.

5. Drive battery

The large-capacity 13.8kWh battery is stored under the floor to maximise interior space and lower the centre of gravity for improved safety and handling. Stored electricity can also be used to power external appliances.

Automatically selected drive modes

ELECTRIC DRIVING

EV Drive Mode: Electric power only

The motors power the vehicle using electricity from the battery, resulting in zero fuel consumption and zero CO₂ emissions. This drive mode is quiet, clean and powerful. Maximum speed is 135 km/h.

HYBRID DRIVING

Series Hybrid Mode: Electric power + engine assistance

The motors power the vehicle using engine-generated electricity. The engine generates electricity when the battery level is low and to increase power when accelerating rapidly or climbing hills.

Parallel Hybrid Mode: Engine power + motor assistance

The engine powers the vehicle (at high speeds, etc. when engine efficiency is high) with assistance from the motors when extra power is required.

MORE CONTROL WHILE YOU DRIVE.

Your wish is the OUTLANDER PHEV's command. Twin Motor 4WD teams with S-AWC to deliver torque and traction to each wheel. You'll feel like the master of the road. The new higher-output rear motor delivers more responsive acceleration, more stability and better control—especially in the new SPORT and SNOW modes.

INSTYLE NAVI with SAFETY / Titanium Grey Metallic [U17]

S-AWC (SUPER ALL WHEEL CONTROL) **S-AWC** Super All Wheel Control

This integrated control system, only available from Mitsubishi Motors, delivers incredible power and control. By optimally managing AYC (Active Yaw Control), ABS (Anti-lock braking system) and Active Stability Control [ASC] with Traction Control [TCL], it brings out the full potential of Twin Motor 4WD without compromising safety, comfort or fuel efficiency. A new Drive Mode Switch lets you select NORMAL mode for regular driving conditions, SNOW Mode for easier starts and more secure cornering on snow-covered roads, or LOCK Mode to simulate locking of a centre differential and optimally distribute torque to all four wheels for improved traction and stability. A separate SPORT Mode Switch lets you activate the SPORT Mode in any drive mode for quicker response on winding roads.

SPORT Mode
(dry winding roads)

NORMAL Mode
(dry paved roads)

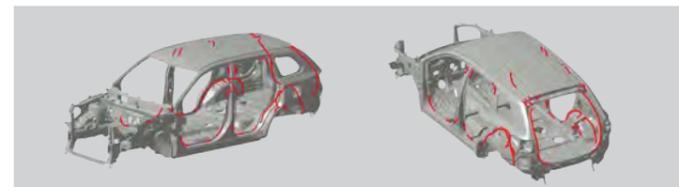

SNOW Mode
(snow-covered roads)

LOCK Mode
(rough dirt and gravel roads)

STRUCTURAL ADHESIVES

Structural adhesive bonding on the door and tailgate openings increases coupling rigidity between body panels for improved steering stability.

REFINED SHOCK ABSORBERS

New larger diameter rear shock absorbers and newly tuned front struts help ensure ideal damping at all speeds.

TOMORROW'S EFFICIENCY TODAY

The innovative Plug-in Hybrid EV system is remarkably eco efficient. Enjoy zero fuel consumption and zero CO₂ emissions during all-electric driving – as well as an incredibly quiet ride. Or enter a hybrid mode to travel even greater distances with low emissions and high fuel efficiency. You can even generate electricity as you drive to enjoy vast stretches of wilderness with total confidence.

INSTYLE NAVI with SAFETY / Silky White Pearl [W13]

INFORMATIVE POWER METER

What is the status of the engine? The motor? The power meter indicates energy usage, regenerative power, engine power (kW), EV output and more for easy confirmation.

CHARGE AND SAVE

Control over battery usage is at your fingertip command using the integrated SAVE CHRГ button. Select SAVE before EV driving to maintain the battery level. Or choose CHRГ to charge the battery via engine while driving.

SPECIAL PHEV DISPLAY FUNCTIONS

The Multi-information Display shows various PHEV display functions including driving range indicator, EV Drive ratio indicator and energy flow indicator.

Driving range indicator

EV Drive ratio indicator

Energy flow indicator

EV Switch

Press the EV switch to enter the EV Priority Mode and help prevent the engine from starting*. It allows you to manually select all-electric driving via Twin Motor 4WD for zero fuel consumption and a quiet ride without engine noise.

* Please see the owner's manual for details

REGENERATIVE BRAKING LEVEL SELECTOR (PADDLE TYPE)

Located on the steering wheel, the convenient regenerative braking level selector lets you easily adjust regenerative braking strength to any of six settings*.

* Except when Adaptive Cruise Control [ACC] is active.

ENERGY MANAGEMENT

Efficient energy management allows concurrent use of various power features – including the air conditioner and audio system – even while charging the battery. A screen also displays the current energy flow, expected charging time and more to keep you informed.

EASY CHARGING AT HOME AND WHILE TRAVELLING

Simply connect the OUTLANDER PHEV with a power outlet at home to charge the drive battery. You can charge while sleeping in around five and a half hours* with the onboard charger and charging cable. Or use the quick charger to charge in as little as 25 minutes (up to 80% capacity) at commercial charging facilities. Charging status is conveniently displayed on the instrument panel.

* With 230V/10A electric power supply. Seven hours with 230V/8A electric power supply.

Regular charging
Conveniently charge at home.

Quick charging
When travelling, use the quick charger to save time.

ECO Score

Indicates the eco-friendliness of your driving. The more green leaves, the better.

ECO Mode Control

Press for more energy-efficient use of the motors, engine and air conditioning.

TECHNOLOGY FOR ALL AROUND SAFETY

Advanced safety technology supports safer, more confident driving – on the road and in parking lots, day and night. From intelligent sensors that track your surroundings and warn you of danger to active driving assistance and solid passive protection, the OUTLANDER PHEV delivers all around high levels of safety.

FORWARD COLLISION MITIGATION SYSTEM [FCM]

Helps prevent a frontal collision or reduce damage if the collision becomes unavoidable. Responds to vehicles and pedestrians via camera and laser radar.

Danger of collision

Warning + braking assistance

High danger of collision

Warning + auto braking

Extremely high danger of collision

Warning + strong auto braking

ADAPTIVE CRUISE CONTROL SYSTEM [ACC]

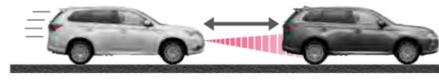

Maintains a selected distance between your vehicle and the car ahead via radar for greater safety and peace of mind. It reduces driver stress especially during traffic jams on highways.

No vehicle in front

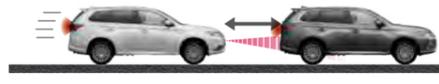

Your selected speed is maintained even if you remove your foot from the accelerator pedal.

Vehicle in front

Your selected distance between vehicles is maintained.

Vehicle in front (slowing/stopping)

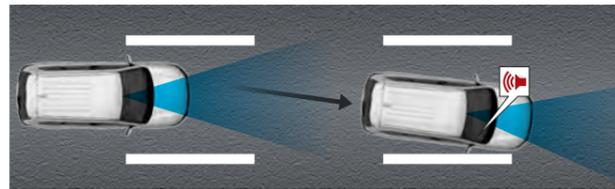

When the vehicle in front slows or stops, ACC slows or stops your vehicle.

ACC indication on multi-information display

LANE DEPARTURE WARNING [LDW]

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

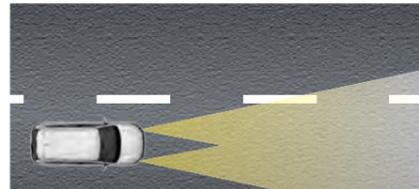

LDW indication on multi-information display

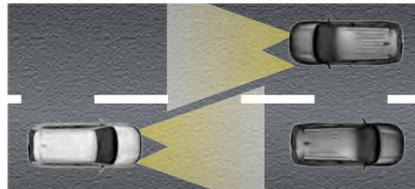

AUTOMATIC HIGH-BEAM

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

High-beam

Low-beam

Note:

FCM: The detection and control capabilities of Forward Collision Mitigation [FCM] are supplemental only and do not prevent collisions in every situation. Please drive safely and do not rely solely on this system while driving. FCM operates when a vehicle is in front of your vehicle. FCM is also designed to detect pedestrians, but may not detect them or be activated in some situations. Auto braking is activated for a car ahead when your vehicle is travelling at a speed of approx. 5km/h to 80km/h and for a pedestrian ahead at approx. 5km/h to 65km/h. Since FCM has no function to maintain braking, the brake is released approximately 2 seconds after stopping. To prevent the vehicle from rolling thereafter, the driver may have to hold the brake pedal down. In some cases, FCM may not function if the driver takes actions for accident avoidance through steering or acceleration operation. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

ACC: The detection and control capabilities of ACC are supplemental only. Please drive safely and do not rely solely on this system while driving. ACC may not be activated in some situations. This system may not correctly detect the actual situation depending on the type of vehicle in front and its conditions, the weather conditions, and the road conditions. Additionally, the system may be unable to decelerate sufficiently if the vehicle in front applies the brakes suddenly or another vehicle cuts into your path, so your vehicle approaches the front vehicle. If you have any questions, please consult your local Mitsubishi Motors dealer/distributor for details.

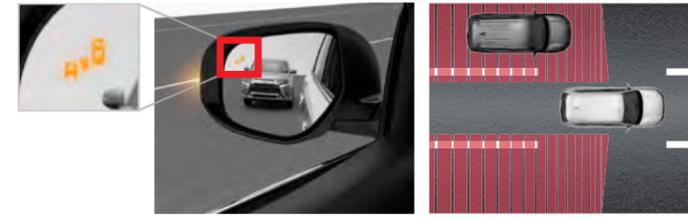

LDW: Lane Departure Warning is not designed to lessen risks associated with not looking ahead carefully (attention drawn to something on the side, absentmindedness, etc.) or poor visibility caused by bad weather, etc. It is designed to detect the lane at a speed of approx. 65km/h or more. Keep steering your vehicle correctly and drive safely. The system may not be able to detect the lane correctly in some conditions. Please see the owner's manual for additional information.

AHB: This system activates at a speed of approx. 40km/h or more and deactivates at lower speeds. Please see the owner's manual for additional information.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

BLIND SPOT WARNING [BSW]

This safety feature uses radar sensors in the rear bumper to detect vehicles in your rear blind spots, on the right and left sides. An indicator appears in the door mirror when BSW is active and the turn signals are off. When a vehicle is detected while the turn signal is on, an indicator blinks in the corresponding door mirror and a buzzer sounds.

REAR CROSS TRAFFIC ALERT [RCTA]

An indicator appears in the combination meter display when RCTA is active. If radar sensors in the rear bumper detect an approaching vehicle nearby while reverse gear is engaged, a warning message appears in the multi-information display, a buzzer sounds and an indicator blinks in both door mirrors.

MULTI AROUND MONITOR

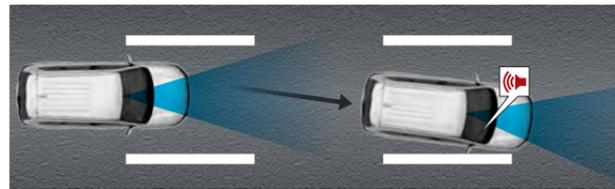

The views from cameras mounted on the front, rear and sides of the vehicle (including a bird's-eye view) can be displayed in various combinations to reveal what is in blind spots and help you park more safely.

Rear view + Bird's-eye view

LANE DEPARTURE WARNING [LDW]

This feature beeps and displays a warning if the vehicle drifts from its lane while the turn signals are not operating.

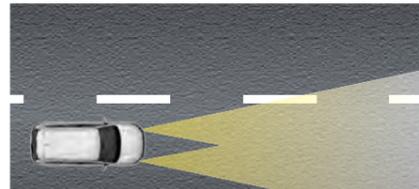

LDW indication on multi-information display

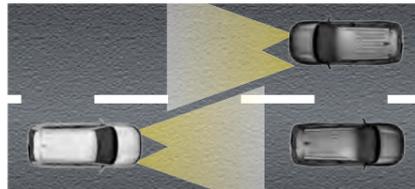

AUTOMATIC HIGH-BEAM

To increase safety, comfort and driving ease at night, the high beams automatically switch to low beams when vehicles are detected ahead and automatically switch back to high beams so you don't have to remove your hand from the steering wheel to switch the beams manually.

High-beam

Low-beam

ULTRASONIC MISACCELERATION MITIGATION SYSTEM [UMS]

To help prevent collisions while parking, a buzzer sounds and a warning displays if front or rear sensors detect a nearby obstacle. Motor output is also controlled if you suddenly accelerate by accident.

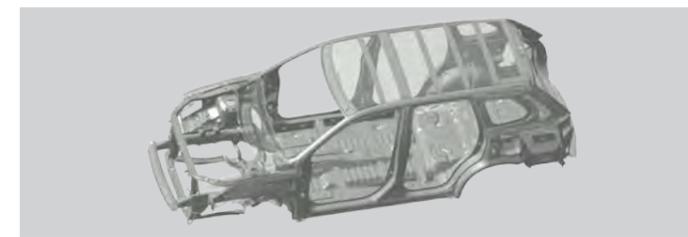

Motor output control activates:

- When driving at very low speeds (not in N or P position)
- When obstacle/vehicle is within a short distance
- When accelerator pedal is pushed hard or abruptly
- When driver is not turning to avoid obstacle/vehicle

RISE BODY

Collision safety performance is significantly enhanced by Mitsubishi Motors' RISE (Reinforced Impact Safety Evolution) body, which efficiently absorbs energy and maintains high cabin integrity in the event of a collision.

Note:

BSW: The detection and control capabilities of Blind Spot Warning [BSW] are supplemental only and do not warn you of vehicles in blind spots in every situation. Please do not rely solely on this system while driving. Blind Spot Warning may not operate normally in some cases, depending on traffic, weather, road surface conditions and the presence of obstructions. Drivers are fully responsible for their own safe driving. The radar wave graphics are used for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

RCTA: Do not rely solely on this system, which may not detect all moving vehicles in certain conditions. Drivers are fully responsible for their own safe driving. The radar wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

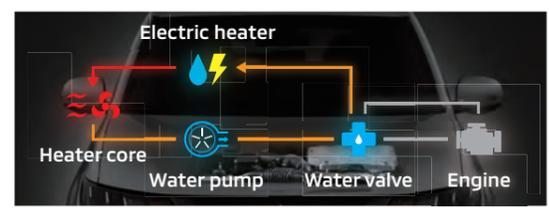

UMS: The detection and control capabilities of Ultrasonic misacceleration Mitigation System [UMS] are supplemental only and do not prevent misacceleration in every situation. Please drive safely and do not rely solely on this system while driving. To prevent the motor output control provided by UMS from causing an impediment during normal driving in rough-road driving conditions, the system automatically de-activates and indicates UMS OFF in the meter cluster when the FCM function is OFF or the ASC function is OFF. No function completely stops the vehicle via the automatic braking. The vehicle may creep forward or backward even when motor output is regulated. The sensing system may not work for netlike and sharp-edged obstructions that do not sufficiently reflect ultrasonic sound. UMS does not include a function which keeps the vehicle stationary. The driver is responsible for stopping the vehicle by pressing the brake pedal as required by the driving conditions. The ultrasonic sensor wave graphics are for illustrative purposes only and do not represent the actual sensor application. Please see the owner's manual for additional information.

FEATURE HIGHLIGHTS

INSTYLE NAVI with SAFETY / Sterling Silver Metallic [U25]
 (Courtesy of Yamaha Motor Co., Ltd.)

ELECTRIC HEATER
 The electric heater uses the electric water pump to circulate hot water and warm the cabin even if the engine isn't running, such as during EV driving. So you can run it early in the morning or late at night without bothering the neighbours. In extremely cold weather, the electric heater can also be used to supplement heat generated by the engine.

AC 1500W POWER SUPPLY (PLUG: F TYPE)
 One power outlet behind the centre floor console and another in the luggage area on the lower quarter trim panel provide up to 1500W of power from the drive battery, enough to run appliances at a campground or at your home during a power outage.
 Note: Some appliances may not be used even if they do not exceed the rated power consumption of 1500W. Please see the user manual for additional information.

Centre floor console outlet

Luggage area outlet

MITSUBISHI REMOTE CONTROL
 For convenience, use your smartphone to remotely control the charging timer, reschedule charging for late at night when electricity fees are low, monitor the remaining charge time and more. The latest Mitsubishi Remote Control app enables immediate or timer activation of cabin cooling or heating.
 Note: The vehicle and smartphone must be connected by wireless LAN. Some smartphones may not be supported. The cooling function can only be operated remotely in models without the electric heater. Pre-heating requires the electric heater.

Timed charging

Timed air conditioning

Vehicle information/ Vehicle operation

CHARGING CABLE STORAGE
 A storage space beneath the rear luggage area floor is ideal for conveniently storing the charging cable.
 Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Note: Equipment may vary by market. Please consult your local Mitsubishi Motors dealer/distributor for details.

Note: The trailer hitch, bracket and wiring harness shown are not factory options, but are separately available. The Ultrasonic misacceleration Mitigation System [UMS] may not operate because the sensor cannot detect the vehicle in front or obstacle when towing. Set the Blind Spot Warning system [BSW] and Rear Cross Traffic Alert [RCTA] to OFF when towing. Please consult your local Mitsubishi Motors dealer/distributor for details about towing.

FEATURE HIGHLIGHTS

LED HEADLAMPS WITH LED DAYTIME RUNNING LAMPS AND LED FRONT FOG LAMPS

The stylish new headlamps feature LED lighting for both the high and low beams. The LED fog lamps illuminate the road ahead with white light.

ANTI-TRAPPING ELECTRIC SUNROOF

A sunroof with tilt, sliding and anti-trapping features lets you bring in the sunlight and fresh air.

ROOF RAILS

Practically designed roof rails handsomely match the sleek roof.

ELECTRIC TAILGATE

The tailgate can be opened and closed automatically from a switch located near the driver's seat.

REAR SPOILER

The rear spoiler has been optimised to further improve aerodynamic performance.

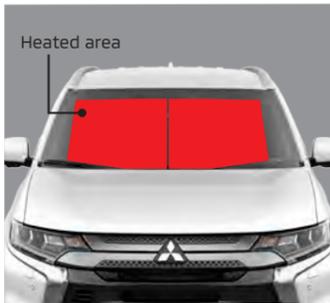

KEYLESS OPERATION SYSTEM [KOS]

When carrying the key, you can press a button on the outside of the front doors or tailgate to lock or unlock all the doors and tailgate, and press the power switch in the cockpit to start the Plug-in Hybrid EV System.

HEATED WINDSCREEN

Heated wires throughout the windscreen clear the glass of fog or frost to secure forward visibility in less time than by using the heater/defroster.

HEATED STEERING WHEEL

The heated steering wheel supports more comfortable operation in chilly weather. Its power switch is conveniently located on the centre panel.

ELECTRIC PARKING BRAKE WITH BRAKE AUTO HOLD

The parking brake on the floor console is easy to operate via stylish switch. Simply pull the switch up to apply the parking brake or push the switch down to release it. While stopping at a stoplight, Brake Auto Hold keeps the vehicle stationary even if you release your foot from the brake pedal. Pressing the accelerator releases the brakes.

REAR VENTS

Adjustable vents are provided in the rear console to keep rear passengers comfortable.

FEATURE HIGHLIGHTS

MITSUBISHI MULTI COMMUNICATION SYSTEM [MMCS]

This central Wide VGA touch-screen makes navigation easy and keeps you clearly informed of ECO information such as energy consumption and driving range. It also displays the rear camera view whenever you reverse to lend a helping hand.

Wide VGA display
Presents information at high resolution for easy reading.

3D map view
Shows 3D polygon landmarks on city maps.

Sound quality control
Supports easy adjustment of various sound control functions.

ECO function information
Your ECO score and other information from ECO functions are displayed.

Split display
Simultaneously displays map information, audio information, etc. on the same screen.

Navigation guidance in meter display
Direction and distance cues contribute to safe driving.

Note: The information displayed varies depending on equipment.

DISPLAY AUDIO

Controlling the audio system is easy on the 6.1-inch QVGA touch-panel display, which can also display the views from the rear view camera.

CD/MP3 PLAYER

A quality CD/MP3 player enables easy connection with a digital audio player for listening pleasure.

USB PORT

The port is conveniently located near the instrument panel, allowing easy access from both front seats.

- 1 3.5cm soft dome tweeter
- 2 16cm polypropylene cone speaker
- 3 16cm polypropylene coaxial 2-way speaker
- 4 25cm subwoofer
- 5 710W 8-channel high-power amplifier

ROCKFORD FOSGATE® PREMIUM SOUND SYSTEM

Savour the stunning sound quality of a new audio system jointly developed with the Rockford Corporation. Nine speakers surround you with spectacular DTS Neural Surround™ sound.

BLUETOOTH® HANDS-FREE KIT

Keep in touch while keeping safely in control with the hands-free kit. Link your Bluetooth®-compatible mobile phone, and the voice-activated dialer lets you make calls while holding the wheel.

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries. DTS Neural Surround™ is a trademark of DTS, Inc. The Bluetooth® word mark and logos are registered trademarks owned by the Bluetooth SIG, Inc. and any use of such marks by MITSUBISHI MOTORS CORPORATION is under license.

THE SPIRITED NEW S EDITION

Satisfy your passion for driving pleasure with the OUTLANDER PHEV S Edition. A special edition black leather interior with diamond-stitched seats conveys elite sophistication. Bilstein shock absorbers deliver more linear handling. And aluminium pedals enhance refinement and control. It's the privileged choice of demanding drivers.

S EDITION / Silky White Pearl [W13]

S EDITION / Black leather with diamond quilting interior

ALUMINIUM PEDALS

BILSTEIN SHOCK ABSORBERS

Highly responsive Bilstein shock absorbers dramatically improve handling and stability.

Note:
Bilstein® is a registered trademark of ThyssenKrupp Bilstein GmbH.

EQUIPMENT LEVEL

S EDITION

Key features (in addition to INSTYLE NAVI with SAFETY)

- 18" x 7.0J alloy wheels (dark chrome)
- Bilstein shock absorbers
- Front grille (dark chrome)
- Glossy black door sashes
- Front skid guard (colour-keyed)
- Rear skid guard (colour-keyed)
- Black roof rails
- Aluminium acceleration and brake pedals

Note: Equipment may vary by market.
Please consult your local Mitsubishi Motors dealer/distributor for details.

EQUIPMENT LEVEL

INSTYLE NAVI with SAFETY

Key features (in addition to INSTYLE NAVI)

- Forward Collision Mitigation [FCM] system
- Adaptive Cruise Control [ACC] system
- Lane Departure Warning [LDW] system
- Automatic high-beam
- Accent panel / door trim panels / floor console panel (morphing black) with silver moulding

- Mitsubishi Multi Communication System [MMCS] navigation system with Rockford Fosgate® 710W premium sound system, LW/MW/FM radio, CD/MP3 player, 9 speakers, USB port (instrument panel, single port type) and rear view monitor/camera
- Front and rear leather seats with diamond quilting (8-way power adjustable driver's seat, front seat heaters, driver's and front passenger's seatback pockets)

Optional shown:

- Anti-trapping electronically controlled sunroof with sunshade (tilt and sliding)

Note: Rockford Fosgate® and associated logos are registered trademarks of Rockford Corporation in the United States and other countries.

INSTYLE NAVI

Key features (in addition to INTENSE+)

- Blind Spot Warning [BSW] with Lane Change Assist
- Rear Cross Traffic Alert [RCTA]
- Multi Around Monitor
- Ultrasonic misacceleration Mitigation System [UMS]
- Steering wheel camera switch

- Accent panel / door trim panels / floor console panel (silver carbon) with silver moulding
- Black upper interior
- Electric tailgate
- Mitsubishi Multi Communication System [MMCS] navigation system with LW/MW/FM radio, CD/MP3 player, 6 speakers, USB port (instrument panel, single port type) and rear view monitor/camera

- Front and rear leather seats (8-way power adjustable driver's seat, front seat heaters, driver's and front passenger's seatback pockets)
- Heated windscreen
- LED headlamps with auto levelling
- LED front fog lamps with silver bezel

EQUIPMENT LEVEL

INTENSE+

Key features (in addition to INTENSE)

- 17" front ventilated disc brakes
- Corner sensors
- 225/55R18 tyres and 18" x 7.0J alloy wheels
- Mitsubishi Remote Control with timed-charging cancellation switch
- Electric heater
- Digital Audio Broadcast [DAB] radio

Optional shown:

- Heated steering wheel

INTENSE

Key features

- 16" front ventilated disc brakes
- Driver's and front passenger's SRS airbags, side airbags & curtain airbags for 1st and 2nd rows
- Driver's SRS knee airbag
- Active Stability Control [ASC] with Traction Control [TCL] system
- Super All Wheel Control [S-AWC]
- Acoustic Vehicle Alerting System [AVAS]
- Tyre Pressure Monitoring System [TPMS]
- 215/70R16 tyres and 16" x 6.5J alloy wheels
- Chrome beltline mouldings
- Colour-keyed door mirrors and side turn lamps, electronically controlled with defoggers and folding function
- High regenerative brake stop signal
- Silver roof rails
- Rear spoiler
- 4WD selector on floor console (4WD lock / snow mode / normal mode)

- SPORT mode switch
- EV switch
- Soft upper surface instrument panel, meter hood and front door trims with stitches
- Four-spoke leather wrapped steering wheel with stitches
- Accent panel / door trim panels / floor console panel (piano black) with silver moulding
- Auto dimming rear view mirror
- Sunglass pocket
- Foot lamps (driver and front passenger)
- Electric Parking Brake / Brake Auto Hold
- Quick charger
- Regenerative braking level selector (paddle type)
- Cruise control (including steering wheel remote control switches)
- Speed limiter (including steering wheel remote control switches)
- High contrast back-lit meters and gauges

- Colour liquid crystal multi-information display
- Keyless Operation System [KOS] with two Keyless Operation Keys and power switch
- Dual-zone automatic climate control air conditioning system
- Rear vents
- Rain sensor
- Auto light control
- Privacy glass (rear door, quarter window, tailgate)
- Halogen headlamps with manual levelling
- Halogen front fog lamps with chrome ring
- LED Daytime Running Lamps [DRL]

Optional shown:

- Display audio with LW/MW/FM radio, CD/MP3 player, 6 speakers and rear view monitor/camera

WARNING

- Individuals who use implantable pacemakers or implantable cardioverter-defibrillators should keep away from the keyless operation system.
- The electromagnetic waves used in the keyless operation system may affect the operation of implantable pacemakers and implantable cardioverter-defibrillators.
- Individuals using other electro-medical apparatuses should check with the manufacturer of the apparatus to confirm the effect of the electromagnetic waves used by the keyless operation system, as the electromagnetic waves may affect their operation.

TECHNICAL SPECIFICATIONS

Model	INTENSE / INTENSE+ / INSTYLE NAVI / INSTYLE NAVI with SAFETY	S EDITION
Wheel drive		4WD
Engine		2.4L
Seating		5
Steering		LHD
Model code	GG3WXDHHZL6	GG3WXDPHZL6
Engine		
Type	2.4-litre 16-valve DOHC MIVEC	
Total displacement	cc	2,360
Injection system	ECI-MULTI (Electronic Controlled Injection)	
Emission level	Euro 6d-Temp	
Max. output (EEC net)	kW (PS)/rpm	99 (135)/4,500
Max. torque (EEC net)	Nm (kgf·m)/rpm	211 (21.5)/4,500
Fuel System		
Fuel type	Unleaded (RON95 and over)	
Fuel tank capacity	litre	45
Battery & Motors		
Battery		
Type	Lithium-ion	
Total voltage	v	300
Capacity	kWh	13.8
Front motor (S61)		
Max output	kW (PS)	60 (82)
Torque	Nm (kgf·m)	137 (14.0)
Rear motor (Y61)		
Max output	kW (PS)	70 (95)
Torque	Nm (kgf·m)	195 (19.9)
Charging time		
Regular	hour (approx.)	5.5*
Quick	min. (approx.)	25 (up to 80% capacity)
Performance**		
Fuel consumption		
NEDC Weighted	litre/100km	1.8
WLTP Weighted	litre/100km	2.0
CO ₂		
NEDC Weighted	g/km	40
WLTP Weighted	g/km	46
Electricity consumption		
NEDC Weighted	Wh/km	148
WLTP Weighted	Wh/km	169
Electric driving range		
NEDC Weighted(All Electric Range)	km/charge	54
WLTP Weighted(Equivalent All Electric Range)	km/charge	45
WLTP Weighted(Equivalent All Electric Range City)	km/charge	57
Max speed in EV mode	km/h	135
Minimum turning radius	m	5.3
Towing capacity (with brake)	kg	1,500
Transaxles		
Total gear ratio		
Front	Engine	3.425
	Motor	9.663
Rear	Motor	7.065
Suspensions		
Front	MacPherson strut with stabiliser bar	
Rear	Multi link trailing arm with stabiliser bar	
Brakes		
Front	Ventilated disc brakes (2-pot)	
Rear	Solid disc brakes	
Steering		
Type	Rack and pinion with electric power assist	
Loads		
Kerb weight	kg	1,880
Gross vehicle weight	kg	2,390
Luggage room volume	litre	463***
Tyres and Wheels		
Tyres (front and rear)	Standard	225/55R18****
Wheels (front and rear)	Standard	18" x 7.0J alloy****

■ WLTP and NEDC measured under the different methods. Therefore, there is a difference in the emission value on the specification chart.

* With 230V/10A electric power supply. 7 hours with 230V/8A electric power supply.

** Measured by MITSUBISHI MOTORS CORPORATION. Actual performance may vary in some cases.

*** 453 litres for model equipped with Rockford Fosgate® 710W premium sound system.

**** Only 215/70R 16 tyres and 16" x 6.5J alloy wheels are available on INTENSE.

Note: Hazardous driving may cause serious injury or vehicle damage. Please drive safely at all times.
